Cybersecurity & Safety Compliance for K-12 Schools
Compliance Data Sheet

Close Your District's Cyber Safety & Data Security Compliance Gaps

Meeting federal and state compliance regulations is a challenge for K-12 IT teams. Compliance visibility and control is lost when their district moves to cloud data storage and communications.

If your district is using Google Workspace or Microsoft 365 without a cloud monitoring tool, you're vulnerable to cyber attacks and compliance gaps.

Federal Regulatory Compliance for K-12 Schools

- Health Insurance Portability and Accountability Act (HIPAA)
- Children's Internet Protection Act (CIPA)
- Family Educational Rights and Privacy Act (FERPA)
- Children's Online Privacy Protection Rule (COPPA)
- Federal Tax Information (FTI)
- Civil Rights Act

Benefits

- Fast implementation, easy-to-use, lightweight architecture
- Gain compliance visibility and control in Google Workspace, Microsoft 365, and in the browser
- Cloud-based compliance, safety, and security on any device, from any location
- Out-of-the-box and customizable audits and reporting
- Detect violent, sexual, discriminatory, and other harmful content in text and images in email, shared files, social media, and more
- Top-rated customer tech support

Threat Protection
Detect phishing & malware attacks in Google Workspace & Microsoft 365 email & drives

Data Security
Data loss prevention for sensitive student, staff & district data in Google Workspace & Microsoft 365

Monitor & Audit
Automated security & behavior monitoring & remediation 24/7/365 with simple reporting

Web Filtering
Automated security & behavior monitoring & remediation 24/7/365 with simple reporting

Classroom Management
Automated security & behavior monitoring & remediation 24/7/365 with simple reporting

Student Safety
AI-enabled self-harm, suicide, cyberbullying, violence & explicit content detection

Where Are Your Security & Compliance Gaps?
Web Filter Comparison Guide

| Features & Functions	Managed Methods	Web Filters	Campus Safety
FERPA, COPPA & CIPA compliance	●	●	
100% cloud-based technology protects data in any location, on any device	●		
APIs scan images & content in emails and files	●		
Detect & control harmful content in Google Workspace & Microsoft 365	●		
Protect against phishing, malware & ransomware	●		
Automate data loss prevention with policy enforcement	●		
Detect account takeovers by login & behavior activity	●		
Approve and un-approve account logins by location	●		
Automate data security compliance reporting	●		
Detect 3rd party apps with risk rating & control, automate policy enforcement	●		
Identify explicit images & content, cyberbullying, self-harm, discrimination, threats of violence in Google Workspace & Microsoft 365	●		
Google Meet & Zoom auditing & reporting	●		
Keyword & regular expression content monitoring	●	●	
AI & machine learning powered content monitoring	●	●	
Browser-based technology, security based on device	●	●	
Protect students from websites that curate harmful and violent content	●	●	
Identify cyberbullying & threats of violence on social media, gaming sites, etc	●	●	●
Prevent users from visiting malicious websites	●	●	
Anonymous student tip line			●
Campus videos & incident detection			●
Professional safety team to analyze & report safety incidents			●

Monitor   Alert   Respond
"You don't know what you don't know. **Unless you have the budget to hire somebody to monitor your environment 24/7, you need solutions like Cloud Monitor and Content Filter** by ManagedMethods to help you do it."

Manuel Sanchez, Director of Technology
Azusa Unified School District

\+
Cloud Monitor

Google Workspace & Microsoft 365 cybersecurity and student safety made easy and affordable. Through automated controls, this central command center helps prevent data security breaches, account takeovers, ransomware, and phishing attacks, while also detecting student safety signals.

Problems Cloud Monitor Solves:

+ Control Third-Party Apps
+ Data Loss Prevention
+ Phishing & Malware Threat Protection
+ Prevent Account Takeovers
+ Student Safety Signals

Content Filter

A modern, minimalist take on the web content filter. It uses browser-level URL blocking and artificial intelligence to provide affordable student safety, security, and CIPA compliance for K-12 schools. Content Filter is easy-to-use, scalable, and doesn't impact end users' browsing speeds.

Problems Content Filter Solves:

+ Easy Block & Allowlist Policies
+ Customize Policies by OU
+ YouTube & Social Media Blocking
+ Student Safety Signals AI
+ Identify Lost or Stolen Devices
