Agenda

01

Why Schools Need Cybersecurity, Safety & Compliance in the Cloud

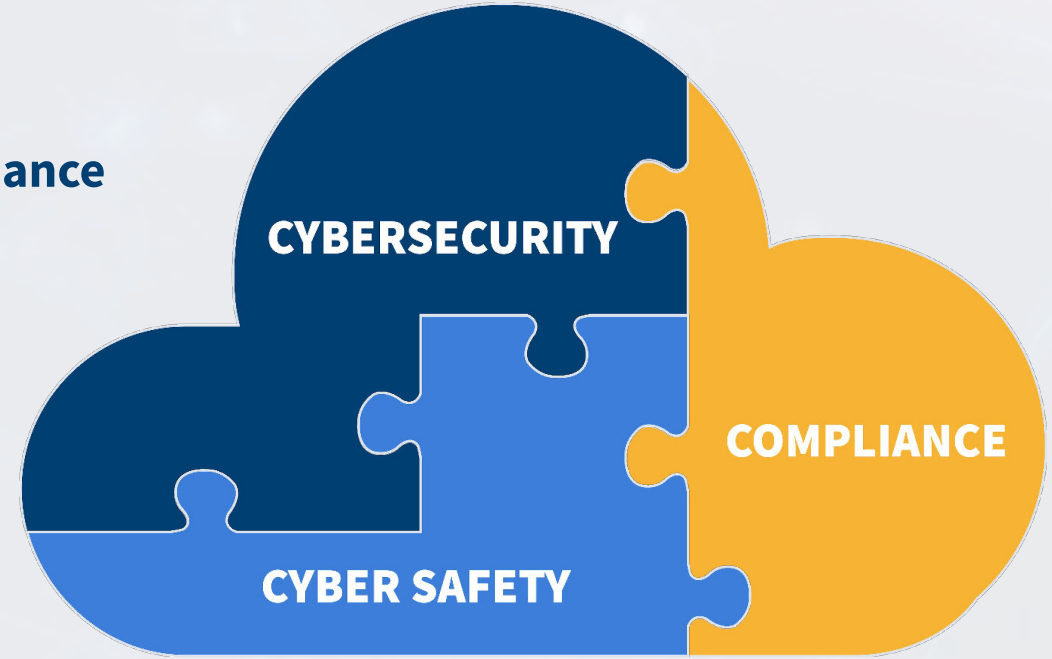
02

Platform Demo & Panel Discussion

03

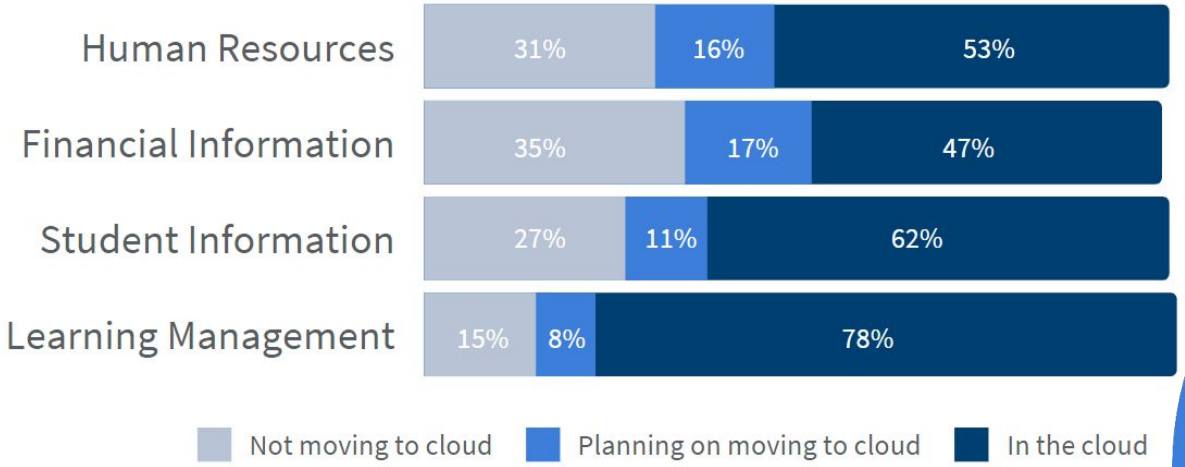
Audience Q & A

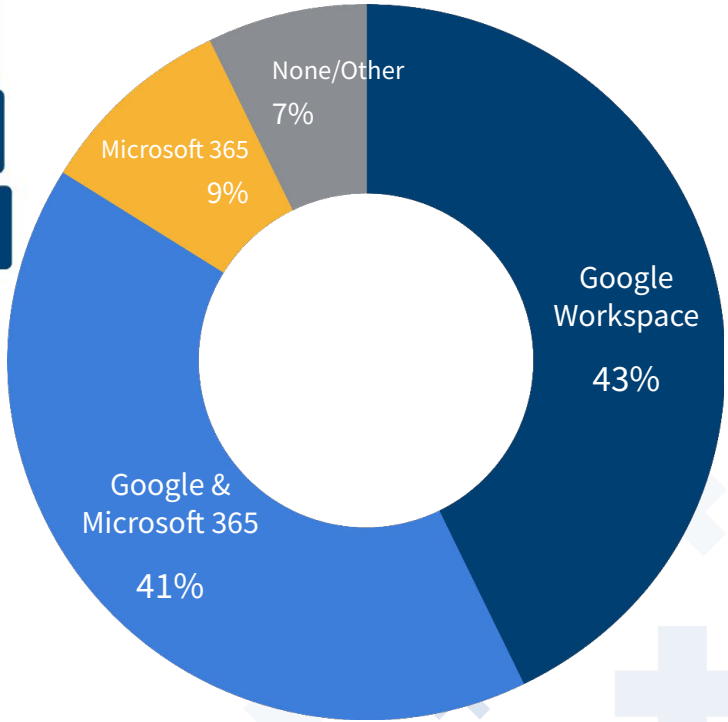
Why Do Schools Need Cybersecurity, Safety, and Compliance in Google & Microsoft 365?



Managed Methods

94% of K-12 schools are in the cloud





Source: [2021 K-12 Cloud Security Report]

Confident, but secure?

Source: 2021 K-12 Cloud Security Report

60% of district leaders have quite a lot or a great deal of confidence in the privacy & security of data stored in cloud apps. *Yet...*

Districts need multi-layered cybersecurity & safety

Cloud	Email (Gmail or Outlook & MS Exchange Online) File Sharing (Drive, Shared Drives, OneDrive, Sharepoint) Video Conferencing / Messaging (Meet, Chat, Teams, Zoom)
Identity & Access	MFA / 2FA SSO
Endpoint	Content Filtering (CIPA / E-Rate) Virus Protection (PCs and & Mac) Classroom / Device Management (MDM)
Network	Firewall Secure Wifi Network Content Filtering
Infrastructure	Vulnerability / Pen Testing Remote Access (VPN) Patch Management (Windows) Backup
