# K-12 Cybersecurity & Safety Made Easy

Monitor

Alert

Respond

24/7/365 cybersecurity and student safety monitoring

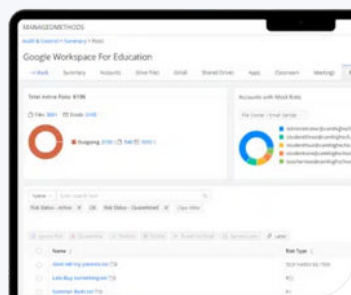

Actionable notifications sent to your selected admins

Easy to use, easy to respond when time is of the essence

## Cloud Monitor

Cloud Monitor makes Google Workspace and Microsoft 365 cloud security and safety easy for K-12 schools – no proxy, no agent, no extension, and no special training required.

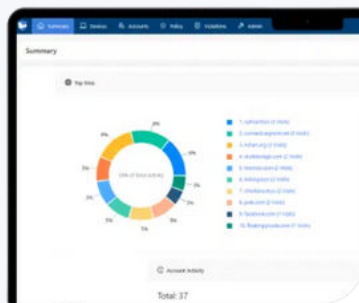

“Anytime we deal with a vendor, we go through the same thing. What’s different about ManagedMethods was that they stuck their necks out and went out of their way to ensure we had everything covered. Customer service was the priority rather than the financial side of things.”

Tyler Butler, Cybersecurity Analyst  
Lufkin ISD

## Content Filter

Content Filter makes cloud-based web filtering simple for K-12 schools, blocking harmful and distracting content while enabling safe access to learning resources anywhere.

## Why ManagedMethods

Cybersecurity & Compliance  
Built for K-12

Real-Time Student Safety  
Signals

Safe, Focused Web Access  
Anywhere

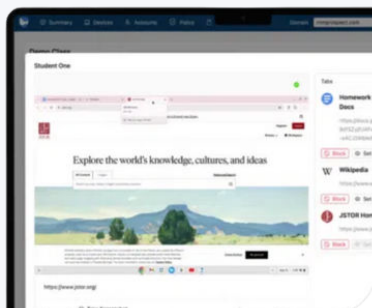

Teacher-Led Classroom  
Engagement

Flexible Solutions That  
Work Better Together

## Classroom Manager

Classroom Manager helps teachers guide focused online learning with real-time browser visibility and controls that keep students engaged without invasive monitoring tools now.
